

EPQIS

EQuS Workshop on Python for Quantum Information Science

November 17 and 18, 2016 • <http://equs.org/events/epqis16>

**This two-day workshop will provide
interactive tutorials in:**

- Version control with Git
- Python for general and scientific use
- Libraries for QIP theory and experiment

Lunch and coffee will be provided, with informal socialization to follow Friday lectures.

Space is limited, so please register at
<http://equs.org/events/epqis16>.
