

# EPQIS

## EQuS Workshop on Python for Quantum Information Science

November 17 and 18, 2016 • <http://equs.org/events/epqis16>

---

This two-day workshop will provide  
interactive tutorials in:

- Version control with Git
- Python for general and scientific use
- Libraries for QIP theory and experiment

Lunch and coffee will be provided, with informal socialization to follow Friday lectures.

Space is limited, so please register at:

<http://equs.org/events/epqis16>
